

Certification: Missouri Educator Evaluation System (MEES)

During the 2018-2019 year, Missouri will be piloting a new certification assessment designed to effectively assess a candidate's teaching ability. All Master Teachers, TiRs, and Coordinators will be involved in the certification decision of the candidates and will be trained on the MEES tool.

The MEES Observation Rubric should be completed by Master Teachers and TiRs for the fall and spring formal observations. The rubric is available through the link below.
