 - Create a statement about expectations about internship hours, a “hold harmless” statement about students going into setting (and consequences), and standards of competence for doing telehealth
 - Springfield/Greene Co. guidelines are the rule
 - b. Comps issues for graduating students
 - Students will still be tested after graduation (NCE) so if we don’t do it this time, they still be tested for core competence
 - Possibly offer students an option of either taking writtens now or wait until the end of Summer
