

**ASSESSMENT OF CANDIDATE PROFESSIONAL DISPOSITION TRAITS
(SUPERVISOR/FACULTY)**

Please rate each candidate on each trait using the scale below by placing an X in the column that best describes the candidates' performance. The default performance level is "Candidate more often than not demonstrates (the trait/disposition)". If a candidate is performing above or below the default performance level, the supervisor/faculty member will note the level and provide comment in the designated field. If a candidate is usually/consistently performing below the default performance level, a supervisor/faculty member may initiate an Intervention Referral and Plan for the candidate.
