MISSOURI PROFESSORS OF EDUCATIONAL ADMINISTRATION INSTRUCTIONAL PERFORMANCE ASSESSMENT FOR ASPIRING BUILDING ADMINISTRATOR (3.0 updated)

USE THIS TEMPLATE FOR YOUR ASSESSMENT

Do not remove prompts. Insert your answers in the proper space.

A required action research activity

This assessment reflects application of the Missouri Leadership Development System domains and aspiring level competencies for building level leadership.

https://dese.mo.gov/media/pdf/oeq-ed-aspiringlevelcompetenciesnelp

Effective educational leadership is measured in multiple ways as the aspiring leader completes degree and certification requirements in his/her preparation program. The new prospective leaders must demonstrate competence in vision, instruction, management, relations, and innovation. However, one specific evaluation that is common to all educational administration preparation programs is the use of a performance assessment that <u>focuses on instruction</u>.

The purpose of this performance assessment is to determine the extent to which the aspiring principal is prepared to assume the duties of instructional leader.

The responses to the *prompts must specifically and thoroughly answer each one in such manner that any reader will know how to replicate the responses*. Attention must be given to *proper writing style, including grammar, spelling, and composition*; therefore, it is imperative that the respondent proof the work before it is submitted. Likewise, this activity and the prompts that guide the candidate through the process of completing this experience *must be answered in the exact order in which the prompts are presented*. *All prompts and artifacts must be completed. Artifacts should be screenshots of material – links to outside resources are not acceptable. Any missing information will result in a rejection of the assessment.*

Note: While the instructions indicate "approximately" one page, several of the responses may require either a shorter or longer answer to effectively address the prompt.

Step I

<u>Prompt 1</u>: In approximately one-page, double-spaced narrative, identify a problem or area of concern related to instruction and include the rationale for this being a problem.

Additional Information: Being able to identify a problem is key to any building administrator's success. For this exercise, you must identify a problem or area of concern related to instruction. You must use building data to support this writing activity and include a rationale.

Artifact 1: Building data sheet to show that this is an instructional problem (can be building data submitted to DESE).

<u>Prompt 2:</u> In approximately one-page, double-spaced narrative, describe the overall climate and culture of the building and then identify the forces working for and against the instructional issue in Prompt 1.

Artifact 2: Provide supportive evidence that supports the description of the climate and the culture of the building. (Evidence should relate to the identified issue)

Prompt 3: In approximately a one-page, double-spaced narrative explain what will happen if the problem is not addressed.

Artifact 3: Give one source that demonstrates what might happen if this problem is not addressed.

<u>Prompt 4</u>: In approximately one-page, double-spaced narrative, describe the <u>legal</u> implications related to staff participation and <u>student outcomes <u>you</u> considered as you worked through this activity, especially as <u>you</u> considered the impact your action plan had on all students, including socio-economic, diversity, special education, ESOL, ethnicity, etc.?</u>

Additional Information: Protecting yourself, staff and students is critical to the school leader. What issues from school law were relevant to this school improvement endeavor?

Artifact 4: Cite one legal source, case, law article, etc. to support your response.

Step II

<u>Prompt 1</u>: In approximately one-page, double-spaced narrative, describe the plan and the goal(s) that you have developed to address the problem or issue you identified in Step I.

Artifact 1: One to two S.M.A.R.T. Goal(s) that were developed by building leadership team.

<u>Prompt 2</u>: In approximately one-page, double-spaced narrative, describe the schedule of events (routines, procedures, schedules) that kept <u>you</u> on target to fix the problem you identified and describe the procedural steps you established for this group.

Artifact 2: Schedule of events: timeline.

<u>Prompt 3</u>: In approximately one-page, double-spaced narrative, explain how <u>you</u> worked with your team and stakeholders to decide what activities and best practice information were shared and used by the faculty and staff.

Artifact 3: Sample journal article or other reputable sources.

<u>Prompt 4</u>: In approximately one-page, double-spaced narrative, explain how <u>you</u> communicated with the implementation or leadership team, faculty, and staff to ensure that the plan was followed and implemented.

Artifact 4: Sample communication (letter, email, meeting agenda) presented to the team, faculty and/or staff.

<u>Prompt 5</u>: In approximately one-page, double-spaced narrative, describe how new knowledge or professional learning activities were provided to the staff.

Additional Information: Your staff had to receive new knowledge-building activities or training. In other words, for staff to understand the plan or new initiative, new knowledge or learning activities would be required for the professional staff.

Artifact 5: Sample agenda or professional learning activity notice to staff.

Step III

<u>Prompt 1</u>: In approximately one-page, double-spaced narrative, describe how <u>you</u> implemented the plan that was developed.

Prompt 2: In approximately one-page, double-spaced narrative, describe the leadership team and key people who helped **you** resolve this problem and describe how each person contributed to the solution.

Artifact 1: List of leadership team members, their title/position, and years in the district.

<u>Prompt 3</u>: In approximately one-page, double-spaced narrative, describe how <u>you</u> motivated faculty and/or staff to support your effort.

Artifact 2: Copy of the communication used to request their participation or communication used to keep staff motivated throughout the work on the problem/challenge. This may be an email, personal note, general announcement, reward/recognition, or formal invitation.

<u>Prompt 4</u>: In approximately one-page, double-spaced narrative, explain to what extent the staff benefitted from the professional learning activity and how did <u>you</u> know?

Artifact 3: Summary chart of survey results including survey questions.

<u>Prompt 5</u>: In approximately one-page, double-spaced narrative, describe the checkpoints that were built-in to provide formative assessment, and describe the summative evaluation process at the end to know whether the outcomes were met.

Artifact 5: Pre- and post-test classroom or building data, survey of teachers, state assessment data, other district data.

Step IV

<u>Prompt 1</u>: In approximately one page, double-spaced narrative, describe your thoughts at the beginning of this performance assessment and how <u>you</u> prepared yourself for being the effective leader that was needed to complete this challenge (i.e., research, interpersonal relationships, etc.).

<u>Prompt 2</u>: In approximately one-page, double-spaced narrative, write a reflection on the successes and/or failures of this experience based on the goal(s) identified earlier in this assessment. Use qualitative and/or quantitative evidence to validate your experience.

Prompt 3: In approximately one-page, double-spaced narrative, describe what you would do differently and what you would do identically/similarly if you had the opportunity. Use qualitative and/or quantitative evidence to validate your experience.

<u>Prompt 4</u>: In approximately one-page, double-spaced narrative, describe the leadership skills <u>you</u> gained through this experience and <u>explain why <u>you</u> are a better leader as a result of this activity. Use qualitative and/or quantitative evidence to validate your experience.</u>

	Exceeds	Meets Expectations	Below Expectations	Well Below
	Expectations			Expectations
Score	4 points	3 points	2 points	1 point

Understands the importance of building effective relationships with staff

Recognizes knowledge, skills, and best practices that support continuous professional growth

Responses include:

- 1)Description of the plan developed to address a key instructional problem and Explanation of how goals were set and aligned to the plan (Artifact-goals or outcomes)
- 2) Description of the schedule of events to address key instructional problem and a description of the procedural steps established for the group (Artifact-Schedule of events; timeline)
- 3)Explanation of how you worked with your team and stakeholders to select best practice information that was shared and used. (Artifact-sample journal article or other reputable source related to best practices)
- 4)Explanation of communication used with leadership team, faculty, and staff to ensure implementation of the plan was followed or implemented (*Artifact*-sample communication presented to team, faculty and/or staff)
- 5)Description of how new knowledge/professional

The candidate provides an exemplary narrative and artifacts related to the understanding of building effective relationships with staff and provides an exemplary recognition of how knowledge, skills and best practices support professional growth to:

- 1)describe the plan to address the problem; and describe how goals were set and aligned to the plan, supported by goals or outcome developed;
- 2) describe the schedule of events and procedural steps.
- 3)explain the best practices used with staff, supported by research, and how those involved worked together;
- 4)explain the communication used to ensure implementation of the plan, supported by a sample letter, email, agenda, etc.;
- 5)describe how new knowledge/professional development was provided to staff supported by an agenda or notice;

The candidate provides an acceptable narrative and artifacts related to the understanding of building effective relationships with staff and provides an acceptable recognition of how knowledge, skills and best practices support professional growth to:

- 1)describe the plan to address the problem; and describe how goals were set and aligned to the plan, supported by goals or outcome developed;
- 2) describe the schedule of events and procedural steps.
- 3)explain the best practices used with staff, supported by research, and how those involved worked together;
- 4)explain the communication used to ensure implementation of the plan, supported by a sample letter, email, agenda, etc.;
- 5)describe how new knowledge/professional development was provided to staff supported by an agenda or notice;

The candidate provides a weak narrative and artifacts related to the understanding of building effective relationships with staff and provides a weak recognition of how knowledge, skills and best practices support professional growth to:

- 1)describe the plan to address the problem; and describe how goals were set and aligned to the plan, supported by goals or outcome developed;
- 2) describe the schedule of events and procedural steps.
- 3)explain the best practices used with staff, supported by research, and how those involved worked together;
- 4)explain the communication used to ensure implementation of the plan, supported by a sample letter, email, agenda, etc.;
- 5)describe how new knowledge/professional development was provided to staff supported by an agenda or notice;

The candidate provides little or no narrative with artifacts related to the core values of the school community and provides little or no use of data to connect the building, mission, vision, and core values.

Step IV Score: (preponderance of evidence)			

MPEA 3.0 Version Glossary

Step 1 Term or Phrase	Meaning	Notes
Approximately one-page	One full page (double spaced) to the maximum of two pages.	Some prompts require longer narratives to explain and fully describe while other prompts do not.
Problem or Area of Concern/Rationale	Identify an instructional challenge. Make sure this decision is data driven. Your evidence is proof of your reason for why this is an issue in your building.	As an instructional leader at the building level you will be responsible for reviewing formative and summative data points and target areas of concern to address. The decision will need to be made in collaboration with the site administrator.
Climate/Culture	This is a description of the evidence working for and against the issue identified.	Not every issue identified will be directly tied to the culture and climate of a building. Any demographic data can be useful in informing about the culture and climate.
Legal Implications	There are many legal implications that building level leaders need to monitor. As you are collaborating with your colleagues, what legal implications must you consider when developing an action plan to address the instructional challenge?	What state or federal statutes/laws must be considered? Legal implications can be referring to district level policies and regulations.
Artifact	Evidence to support narrative. Examples may include (e.g. MAP data, EOC results, Benchmark data, Attendance data, Journal Article, Demographic data, Legal Source, etc.)	Helpful when there is an introduction/explanation of the artifact in the narrative of the prompt. (If using a table, include a key) Providing links to articles or data is not acceptable. All artifacts should be screenshots of the

Step 2 Term or Phrase	Meaning	Notes
Approximately one-page	One full page (double spaced) to the maximum of two pages.	Some prompts require longer narratives to explain and fully describe while other prompts do not.
SMART Goal	Specific, Measurable, Achievable, Relevant, Time Based with End Data	https://www.indeed.com/career-advice/career-development/smart-goals
Professional Learning Activity	Professional Development based on the prioritization of best practices	Planned professional development in conjunction with the identified issue.
Artifact	Logistics of the process. Examples may include (e.g. Timeline, Sample Agendas, SMART Goal (1-2), Formative Data, etc.)	In Step 2 helpful to start with developing your Artifact with the school's leadership team and then write the narrative.

Step 3 Term or Phrase	Meaning	Notes
Approximately one-page	One full page (double spaced) to the maximum of two pages.	Some prompts require longer narratives to explain and fully describe while other prompts do not.
Implemented Plan	What steps were taken to address the instructional problem?	Plan-Do-Study- Act process
Survey Results	Includes the key questions and results.	Google Form Pie Chart Summary
Checkpoints	Measurements/milestones to check progress in metrics. Time in the process to review	Collaborative process which could lead to changes within original plan.

	the progress within the plan developed. Formative and Summative Assessments.	
Artifact	Results Examples may include formative data points (e.g. pre/post data points,xxxx, xxxxx, etc.)	Assessment/evaluation could be a benchmark used as formative assessment earlier in process.

Step 4 Term or Phrase	Meaning	Notes
Approximately one-page	One full page (double spaced) to the maximum of two pages.	Some prompts require longer narratives to explain and fully describe while other prompts do not.
Use evidence to validate your experience	Share specific example(s). (Show don't tell.)	Providing solid examples (2-3) to validate your experience.
